EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

To correct obvious typing errors, the application has been amended as follows:

At line 7 of claim 1, "existing" was deleted and - - exiting- - was inserted.

At line 7 of claim 11, "existing" was deleted and - - exiting- - was inserted.

The following is an examiner's statement of reasons for allowance: The cited prior art fails to disclose or reasonably suggest providing a device for creating a spread-out stream of tobacco fibers having "at least one air nozzle having an air flow opening interrupting the guide track .. wherein the nozzle has a downstream wall, in relation to the conveyance direction of the fiber stream, which makes a transition into the guide track in a steady convex curvature". The closest prior art Stephan et al (US 5,941,520) which was previously considered in view of Orihara US 5,967,146 provides the claimed downstream wall but fails to disclose or reasonably suggest applying the nozzle to convey tobacco particles as opposed to sheets and thus as further noted by Applicant's representative "The conveying of paper sheets along a horizontal conveying track (as disclosed by Stephan) does not allow conclusions to be drawn as to conveying and uniform spreading of a tobacco-fiber flow along a sliding surface that changes concave from the horizontal to the vertical direction, as is required for the distributor of a cigarette rope machine."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
